Bluetooth

Set up your LG-C360 for Bluetooth use. You can adapt your visibility to other devices or search through devices your phone is paired with.

Note: Pair LG-C360 with any device supporting BT version above 2.0, then passcode is not asked, since passcode is auto generated. Pair LG-C360 with any device supporting lesser BT versions such as 1.2 etc, then passcode is asked.

Phone Software update

LG Mobile Phone Software update from internet

For more information on using this function, please visit the http://update.lgmobile.com or http://www.lg.com/ common/index isn → select country

This Feature allows you to update the Software of your phone to the latest version conveniently from the internet without the need to visit a service centre.

As the mobile phone Software update requires the user's full attention for the duration of the update process please make sure to check all instructions and notes that appear at each step before proceeding. Please note that removing the USB data cable or battery during the upgrade may seriously damage your mobile phone

Synchronise your phone with your PC

You can synchronise your phone with your PC to make sure all your important details and dates match, but also to backup your files to put your mind at ease.

Backing up and restoring your phone's

- 1 Connect the USB cable to your phone and your PC.
- 2 Select the PC suite from the popup menu in your phone and run PC Suite Program in your PC.
- 3 Click the "Phone Backup & Restore" in PC suite (Tools > Phone Backup & Restore), and select Backup or Restore.
- 4 Mark the contents you would like to back up or restore. Select the location you would like to backup information to, or restore information from, Now select Backup o Restore and Click Finish
- 5 Your information will be Backed up or Restored NOTE: Install PC Suite using CD provided and follow the Installation Guide

Viewing your phone files on your PC

- 1 Connect the USB cable to your phone and your PC.
- 2 Select the PC suite from the popup menu in your phone and run PC Suite Program in your PC.
- 3 Open LG PC Suite icon in your PC which is already installed, after searching the phone it will be connected automatically

TIP! Viewing the contents of your phone on your PC helps you to arrange files, organise documents and rem contents you no longer need.

☐ Guidelines for safe and efficient use

Please read these simple guidelines. Not following these

Exposure to radio frequency energy Radio wave exposure and Specific Absorption Rate (SAR

This mobile phone model LG-C360 has been designed to comply with applicable safety requirements for exposure to radio waves. These requirements are based on scientific guidelines that include safety margins designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardised methods with the phone transmitting at its highest certified power level in all used frequency bands.

While there may be differences between the SAR levels of various LG phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.

The SAR limit recommended by the International Commission on Non-Ionizing Radiation Protection (ICNIRP) is 2 W/Kg averaged over 10g of tissue.

The highest SAR value for this model phone tested by DASY4 for use at the ear is 0.883 W/Kg (10g) and when worn on the body is 0.685 W/Kg (10g).

SAR data information for residents in countries/regions that have adopted the SAR limit recommended by the Institute of Electrical and Electronics Engineers (IEEE), which is 1.6 W/Kg averaged over 1g of tissue.

Product care and maintenance

Only use batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.

- Do not disassemble this unit. Take it to a qualified service technician when repair work is required.
- Keep away from electrical appliances such as TVs, radios, and personal computers.
- The unit should be kept away from heat sources such as
- Do not drop

☐ Guidelines for safe and efficient use

- Do not subject this unit to mechanical vibration or shock.
- Switch off the phone in any area where you are required by special regulations. For example, do not use your phone in hospitals as it may affect sensitive medical equipment.
- Do not handle the phone with wet hands while it is being charged. It may cause an electric shock and can seriously damage your phone
- Do not to charge a handset near flammable material as the handset can become hot and create a fire hazard.
- · Use a dry cloth to clean the exterior of the unit (do not use solvents such as benzene, thinner or alcohol)
- Do not charge the phone when it is on soft furnishings
- The phone should be charged in a well ventilated area.
- Do not subject this unit to excessive smoke or dust. • Do not keep the phone next to credit cards or transport
- tickets; it can affect the information on the magnetic strips. • Do not tap the screen with a sharp object as it may damage
- Do not expose the phone to liquid or moisture

Use the accessories like earphones cautiously. Do not touch

Efficient phone operation

Electronics devices

All mobile phones may get interference, which could affect

- Do not use your mobile phone near medical equipment without requesting permission. Avoid placing the phone over pacemakers, for example, in your breast pocket.
- Some hearing aids might be disturbed by mobile phones
- Minor interference may affect TVs, radios, PCs, etc.

Road safety

Check the laws and regulations on the use of mobile phones in the area when you drive.

- Do not use a hand-held phone while driving Give full attention to driving
- Use a hands-free kit, if available

☐ Guidelines for safe and efficient use

- Pull off the road and park before making or answering a call
- RF energy may affect some electronic systems in your vehicle such as car stereos and safety equipment
- When your vehicle is equipped with an air had, do not. obstruct with installed or portable wireless equipment. I can cause the air bag to fail or cause serious injury due to improper performance.
- If you are listening to music whilst out and about, please ensure that the volume is at a reasonable level so that you are aware of your surroundings. This is particularly perative when near roads

Avoid damage to your hearing

Damage to your hearing can occur if you are exposed to loud sound for long periods of time. We therefore recommend that you do not turn on or off the handset close to your ear. We also recommend that music and call volumes are set to a

NOTE: Excessive sound pressure from earphones can cause hearing loss.

Rlasting area

Do not use the phone where blasting is in progress. Observe restrictions, and follow any regulations or rule

Potentially explosive atmospheres

- Do not transport or store flammable gas, liquid, or explosives in the same compartment of your vehicle with your mobile phone and accessories.

In aircraft

- Wireless devices can cause interference in aircraft
- Turn your mobile phone off before boarding any aircraft.
- Do not use it on the aircraft without permission from the

Children

Keen the phone in a safe place out of the reach of small children. It includes small parts which may cause a choking hazard if detached.

☐ Guidelines for safe and efficient use

Emergency calls

Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on the phone for emergency calls. Check with your local service

Battery information and care

- You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's
- Use only LG batteries and chargers. LG chargers are designed to maximise the battery life.
- Do not disassemble or short-circuit the battery pack. Keep the metal contacts of the battery pack clean.
- Replace the battery when it no longer provides acceptable performance. The battery pack maybe recharged hundreds of times until it needs replacing.
- Recharge the battery if it has not been used for a long time.

- Do not expose the battery charger to direct sunlight or use it in high humidity, such as in the bathroom.
- Do not leave the battery in hot or cold places, this may deteriorate the battery performance
- There is risk of explosion if the battery is replaced by an incorrect type. Dispose off used batteries according to the manufacturer's
- instructions. Please recycle when possible. Do not dispose as household waste If you need to replace the battery take it to the pearest authorised LG Electronics service point or dealer for assistance.
- · Always unplug the charger from the wall socket after the phone is fully charged to save unnecessary power consumption of the charger Actual battery life will depend on network configuration.

product settings, usage patterns, battery and environmental

Possible Corrective measures

☐ Guidelines for safe and efficient use
